Peer Evaluation, CS322, Fall 2008

Name_______________________________

Please complete this evaluation confidentially and sign below indicating that you have done so. I will be the only person reading this material.

You will recall that a fraction of your grade is based on the overall quality of the final project, and the remainder is based on your individual work and your contribution to the project. This evaluation will aid me in deciding the reward or penalty for individual effort - I need to know what each of you has done and will value your input on the efforts of your colleagues. Be as objective as possible about the relative contributions of each member of the team.

Please complete this form and return to me Friday, Dec. 5th. If I am not in my office, slide the evaluation under my door.

Pledge:
On my honor, I have completed this form without sharing its contents with anyone else.

Signed___________________________________

Name __________________________________
Please describe in outline form what you did on the project. Include interactions with others or shared activities. Please include any comments concerning what you might have done differently in retrospect. You may attach additional sheets if needed.
For each member of the team OTHER THAN YOURSELF, give one of the ratings listed below based on your direct, personal knowledge. If you do not feel you know enough about what the team member did to make a rating, use the “no evaluation” rating. Use the “comments” section to justify your rating for each team member.

Ratings: “Did fair share of work”
“Did more than fair share of work”
“Did less than fair share of work”
“No evaluation”
