Instructions for Reading Assignments
Math 211 - Calculus I - Caudill

- You will have a reading assignment for nearly every class meeting. Each assignment will have two or three questions that you should be able to answer after you have done the reading.
- You will receive either 0 or 1 on each question. The emphasis here is on you making a serious effort.
- You must write your answers in complete sentences.
- You must give an explanation for each answer on each question.
- You must submit your answers to me via email by 10:00 a.m. on the due date.
- Remember that my email address is lcaudill@richmond.edu.
- In order to receive credit, you must send me email from your account (not someone else’s). Your email message must have the subject line indicated on the Reading Assignments webpage.

For example, in class on Wednesday, August 27, we will discuss sections 1.2 and 1.5. Sometime before you come to class on Wednesday, you should read these sections in the text, then go to the website and read the questions for Reading Assignment R1. Send me your answers to the questions in an email. All this should be done before 10:00 a.m. on August 27. You will repeat this process for each day, except review days and exam days.

Once again, be sure to submit each Reading Assignment by 10:00 a.m. on the due date, and be sure to put the correct subject line in the email.
