Errata

Page 178:
In the last sentence of Problem 7.15, replace “and rotate(a, 3) would change” with “and rotate(a, -1) would change”.

Page 179:
Replace the method specification in Problem 7.28 with:

```java
static int[][] multiplicationTable(int n) {
    // returns an n-by-n array whose (i,j) entry
    // is the product (i+1)*(j+1)
```

Page 185:
Replace “public public” with “public” on line 33 of Example 8.2.

Page 191:
Replace “double” with “int” on lines 16 and 20 of Example 8.5.

Page 199:
Delete the first “{” on line 16 of Example 8.9.

Page 203:
In the Square class in Example 8.11, replace lines 11-13 with:

```java
12    int x = northWestCorner.getX() + (int)side/2;
13    int y = northWestCorner.getY() - (int)side/2;
14    return new Point(x, y);
```

Page 260:
Replace “println()” with “write()” in Table 12.3.
